

GOING NUCLEAR:

A Symposium on American Nuclear Politics

Image courtesy of National Archives and Research Administration, no. DA-SC-85-10582

At the heart of American nuclear power lies a paradox: Although the United States participated in and propelled a nuclear arms race, no other country has expended more resources in seeking to limit the proliferation of nuclear weapons. Why did the United States pour energy into arms control, disarmament, and non-proliferation agreements, in an effort to limit the very weapons it relied upon so heavily? Why does it continue this pattern today?

Timothy Andrews Sayle, the Bissell-Heyd Research Faculty Fellow, has convened a symposium to discuss and explore the past, present, and future of U.S. nuclear proliferation and non-proliferation policy. Historians, political scientists, and practitioners will explore American policy over time and place, including discussion of U.S. non-proliferation policy in NATO, the United Nations, and in key regional areas: the Middle East, South Asia, and the Korean Peninsula.

Morning Panel 1: Institutions

Katie Davis, University of Toronto

Susie Colbourn, University of Toronto

Ambassador Paul Meyer, The Simons Foundation

Professor Tom Nichols, U.S. Naval War College

Morning Panel 2: Regions

Professor Jayita Sarkar, Boston University

Dr. John S. Park, Harvard University

Dr. Farzan Sabet, Graduate Institute Geneva

There are two separate registration lists for this event: Morning Symposium and Afternoon Keynote presentation.

For the morning symposium, please register here >> <https://munkschool.utoronto.ca/csus/event/24282/>

For the afternoon keynote by Prof. Francis J. Gavin, register here >> <https://munkschool.utoronto.ca/csus/event/25193/>

THURSDAY, APRIL 12TH, 2018 | 8:30 am - 12:45 pm

Munk School of Global Affairs, 1 Devonshire Place, South House

Vivian and David Campbell Conference Facility

Registration is required.
